

Thanks for supporting my work by purchasing a copy of this Other Space Industrial Vol 2 loop sample set.

With your purchase you are granted certain rights. If you have any questions about specific usage rights that are not covered below, feel free to contact me.

For the most part, everyone knows what you can and cannot legally do with sounds, be they loops or one-shots, so I'm only going to cover a couple of the main things. Please read through carefully though, as I do tend to offer more rights than you might get with a larger company, and it's good for you to be aware of them so you can take advantage of them. :)

1) These sounds may be used in your music productions, both live, and recorded. You are also granted use of the sounds in commercial productions for which you are the writer or producer, if you are not able to claim one of those credits, then a license for the sounds set must be purchased by someone who is either the writer or producer for the music.

2) You may not make a loop or sample based product, or library music out of these samples.

3) Variations of these samples and loops may be made and saved for your own use. However, they may not be shared with others, sold, or transferred in any way other than through your finished musical pieces as part of a larger composition.

4) Lastly I would just like to thank you again for your purchase of this license, and I hope that you find lots of good uses for these loop samples in your music.

And as I stated above, if there is a situation I have not covered here that you need to ask about, feel free to contact me, my personal email is kinkos1jeffr@hotmail.com and it is checked daily.

Jeff - Soundspice
